CAREER OBJECTIVE

With over 4 years of hands-on experience, I am a seasoned Front-End Software Engineer specializing in designing, developing, and implementing user-centric web applications. I consistently deliver innovative and high-quality web solutions, with a proven track record of success.

I specialize in crafting user-centric web applications that seamlessly blend functionality and aesthetics. I'm proficient in diverse range of technologies including HTML, CSS, PHP, TypeScript, and JavaScript frameworks such as ReactJS, NextJS, and Vue.js. I consistently deliver intuitive and high-performance user interfaces. Leveraging responsive design principles and a deep understanding of modern web development practices, I excel in guiding projects through the entire development lifecycle—from conceptual design to deployment. Known for my innovative problem-solving skills and commitment to excellence, I develop scalable, robust solutions that enhance user engagement and drive business growth.

QUALIFICATIONS SUMMARY

Technology: HTML5, CSS3, JavaScript ES6, TypeScript, ReactJS, NextJS , Redux , PHP, Framer Motion, React Testing Libraries (Jest, Cypress), Firebase, React toolkit., WordPress.

Software: Adobe Illustrator, Adobe Photoshop, Figma, MS Excel, MS Word, Google Analytics.

KEY COMPETENCIES:

- **Systems Design and Analysis**: Expertise in architecting and analyzing complex systems to ensure scalable, efficient solutions.

- **Front-End Development**: Proficient in building responsive, high-performance user interfaces using modern web technologies.

- **Excellent Communication Skills**

- **Implementation and Transition Planning**: Skilled in planning and executing smooth transitions from development to production, minimizing downtime and ensuring seamless integration.

- **Team Coordination and Communication**

- **Peer Programming & Code Review**

- **Troubleshooting & Debugging**: Strong problem-solving skills in identifying and resolving complex issues, ensuring stable and reliable software performance.

- **Software Documentation & Git Version Control**

INTERPERSONAL SIKLLS

- Strong communication (verbal and written) skills, facilitation, and relationship building skills
- Strong leadership skills, excellent analytical skills, team management and result-oriented.
- Strong inclination towards constant growth regardless of the field.
- Ability to work under pressure.

PROFESSIONAL EXPERIENCE

- Present Frontend Software Engineer – Freelance
- **THRYNEX**

Spearheaded the front-end development lifecycle, utilizing WordPress to build robust user interfaces, resulting in responsive web applications.

- **EMMAOMG**

Assisted in the development of a visually stunning and highly functional portfolio website for EMMA OMG, focusing on showcasing achievements, content organization, and user engagement. Employed modern design trends and utilized React to create a dynamic, personalized experience tailored to the client's brand.

- **SPIRITHUBGLOBAL**

Spearheaded the development if the SpiritHubGlobal website using WordPress. My achievements with SpiritHubGlobal include optimizing the platform for speed, efficiency, and an overall seamless user journey.

- **SKILLWEED**

Spearheaded the development of a Cyber Security training website. Skillweed is about nurturing your passion, fostering mentorship, building a tight-knit community, and making a meaningful impact.

- WordPress Developer – Freelance/ Self-employed

EDUCATION

• Degree in Software Engineering - Federal University of Technology - Akure, Nigeria 2020 - Ongoing

• Software Engineering Certificate - African Learning Experience (ALX) - Online - August 2021 -2022
